I request that these comments be made a part of the official record.

Wendy - First I want to commend you on your presentation skills, especially under pressure as well as the knowledge you possess & recall.

You've heard from a number of people urging the evacuation of the Yucca Mountain Nuclear waste repository project. I join them. I don't need to give reasons you already know them. None of us wants nuclear waste near our homes or buried with even a remote possibility of environmental injury. I'd much rather see the billions of dollars used for repositing, used for development of neutralization processes.

I know you & the committee will do the right thing for you, the community & the planet.

Please note: For your comment(s) to be considered in the Final Environmental Impact Statement, your comment(s) need to be received by the Department of Energy by February 9, 2000. To the extent practicable the Department will consider comments received after February 9.
